

## 22 Floors is...

What do you want to know about 22 Floors? Maybe you have questions like - Is there a lounge on the first floor where I can host Call of Cthulhu parties? Will I have to engage in periodic knife fights with communist sympathizers? Are there overly large graphics displayed around the building? Why is the building called 22 Floors when it's only three stories tall? Is there a website where I can spy on my neighbors? If I need to escape without detection, and implicate my neighbor in the crime, can I do that at 22 Floors? Will there be a restaurant downstairs so I never have to leave the building? If I have a numerophobia will I be unhappy living at 22 Floors? What's the deal with that store that changes every month?

Yes. Yes to all these questions and more. Call us and we'll show you around.
